If you're unable to find a sub, please contact the league secretary and a ghost sub will be assigned. The Ghost Sub's score will be the average score of the flight that you play in that night. Your opponent will play against this average. However, the maximum points that you can score for your team with the use of a Ghost Sub will be capped at 0 points. (incentive to find a real sub). **If you get a sub, make sure you indicate on the score card the player the sub is playing for. If the sub is a new player, please include his phone number and email.**

Groups must play as foursomes. This is to prevent players from being stranded as a twosome.
